

After watching Miss Palmer's Bar Chart Video, create two more bar charts using the following tables of information. Don't forget to add a title and labelled axis.

1. **A table to show a group of children's favourite ice cream flavour.**

Create a bar chart with the scale going up in 10s.

<u>Type of Ice Cream</u>	<u>Votes</u>
Strawberry	60
Mint Choc Chip	70
Chocolate	35
Vanilla	25
Cherry	80

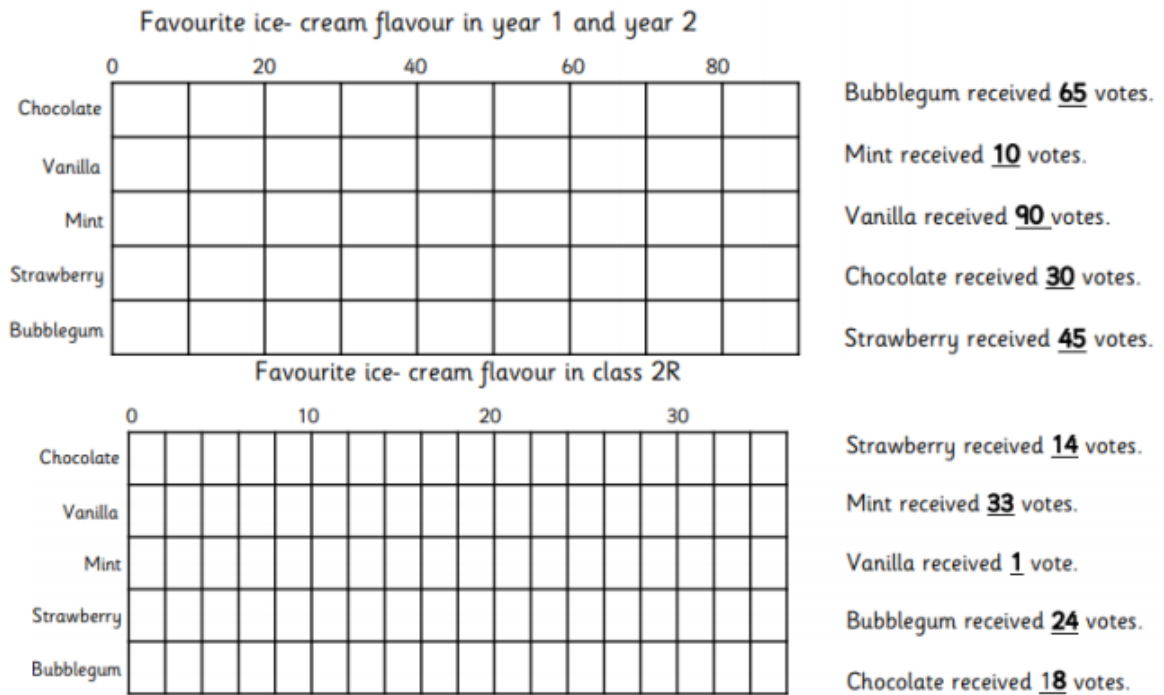

2. **A table to show a group of children's favourite pet.**

Create a bar chart with the scale going up in 5s.

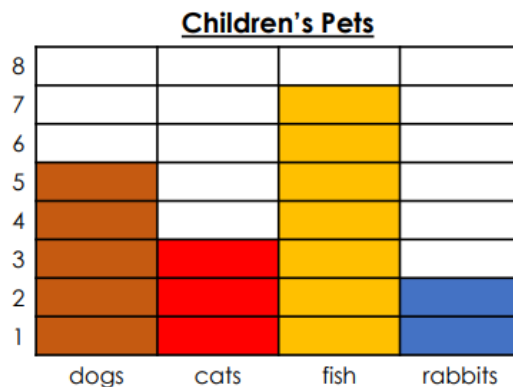

<u>Type of Animal</u>	<u>Votes</u>
Guinea Pig	15
Dog	20
Cat	35
Horse	40
Snake	5

Year 2 Statistic Problem Solving Questions

I can read scales* where not all numbers on the scale are given and estimate points in between

Read the graph

There are **3** .

There are **2 more** than .

There are less than .

There are **5 less** than .

Write your own sentence:
