

## Class 1 Summer Term Home Learning Tasks Week 4

Weekly activities: Numberbots, phonic sound cards, tricky bit words and to look at and enjoy a range of books with family members...

In addition, please could children complete the following tasks. Please try to complete six tasks but if you would like to do them all, feel free to do so. Don't forget to take a photo and put it onto Tapestry or on our class twitter page. [@Class1Elves1](#)

Don't forget to keep a look out for my story telling videos on Tapestry.

### Number: Number 15

You Tube – watch Numberblocks – Meet Number 15!

#### Jazzy Numbers!

Collect 15 small items that can be stuck onto a piece of paper to create the number 15. Please help your child by drawing a faint large number 15 that your child can attach colourful oddments.

I now challenge you to write the following in a fun and creative way. Perhaps you could use a stick in wet sand or a finger in glitter. Use objects or make a numberline to help you find your answer.

10	+		=	15
11	+		=	15
12	+		=	15

### Number: Problem Solving Outdoors

Ask your child to listen to the following word problems. He/she needs to find and use the natural objects to show their answers.

There are 15 leaves on a tree and the wind blows and 4 float to the ground. How many are left?

### The World:

Tweet! Tweet!

Go outside and enjoy bird watching.  
What birds can you see?  
Now create your favourite bird on Purple Mash.  
Give your bird a name.

If completed I will add an audio message to say well done!

### Phonics: Phase 4 Letter Box

Using a cereal box create a small letter box. Make paper envelopes and write the phase 4 words on each. You could also add some extra words that use the 'air' trigraph.

Now post the words you have read correctly>  
How many did you get right?

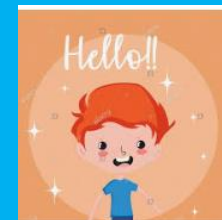

### Exploring Media and Material/Being Imaginative:

- Make a natural bubbly wand using sticks and string.
- Now see how big you can make your bubbles.

### Writing: Card

Make and write a card to a family member and post it.

There were 15 pebbles in my pocket but my pocket had a hole. How many pebbles do I now have?

I know challenge you to write the calculation sentences.

### SSM: Shape

**Wanted !**

### **Cylinder Shapes**

How many cylinders can you find in your kitchen cupboard?

How could you use the cylinders to make a larger cylinder?  
Whisper the description of the shape to a family member.

Challenge: Make a pyramid with your cylinder shapes.

### Health and Self-Care:

**Let's Get Dancing!**

Feel your heart before you dance.  
What can you feel?  
Clap the beat with your hands.  
Now put your favourite music on and have a boogie!  
Feel your heart again.  
Does it feel the same?  
Clap the beat with your hand?

### **Challenge**

Why is your heart beating faster?  
Is it good for your body to dance?

### Reading: Sentences

Register for free and take a look at the Oxford Owl eBook library. Select the Phase 3 book **Nok Can Fix It!** I would love to hear your reading on tapestry.
