Maths- Statistics

Create a line graph to show average monthly temperatures for your island. (imaginary one).

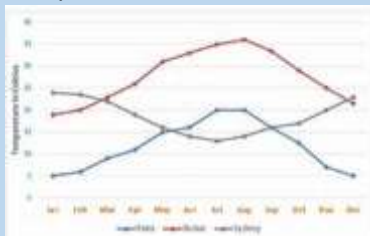

Think about your scale and any necessary titles. You might like to use Purple Mash for this.

Can you create some questions linked to your line graph? For example:

What was the difference in temperature for the months of July and December?

Find your island's mean average temperature.

You might also like to research temperatures for your real islands and present some of the data on

one graph.

Extension Task: Have a try at the challenge cards.

YEAR 6 Summer 2 Week 4

Dear Parents,

Here is an overview of tasks we'd like the children to be completing at home over the forthcoming week. We are committed to ensuring that your child is still learning as much as possible and endeavour to do our absolute best to keep this happening.

Warmest regards,
Mrs Haffey, Mrs Marjoram and Mrs Bailey

Reading:

Read Holes Ch31-end of 36

Answer the VIPERS questions

Optional Tasks:

Write a diary entry, as Twitch, describing your first day at Camp Green Lake.

P.E:

Give Mrs Haffey's Alphabet Challenge a try!

Art and Design/Science Project-Weeks 4&5

My New Species- Y6 Transition task from Fulford School. See task sheet.

Project: Collaborative Research Task Week 4 and 5

Log in to Google Classroom. (see sheet for help with this)

There is a list of partners who will be working together researching for this task.

Each partner will research x2 of the listed islands and x1 island of their own choice, before sharing this information with their partner. (See pack for info)

You can then create the graphs/charts independently using the information you and your partner have found.

This Project may take more than one week to complete so don't rush to get it all finished- prioritise your research so you can share it with your partner.

Financial Literacy

Make notes on the questions and then complete the given tasks for Lessons One and Two.
