My Time Capsule

If I made a time capsule with items to remind me of this time, I would include...

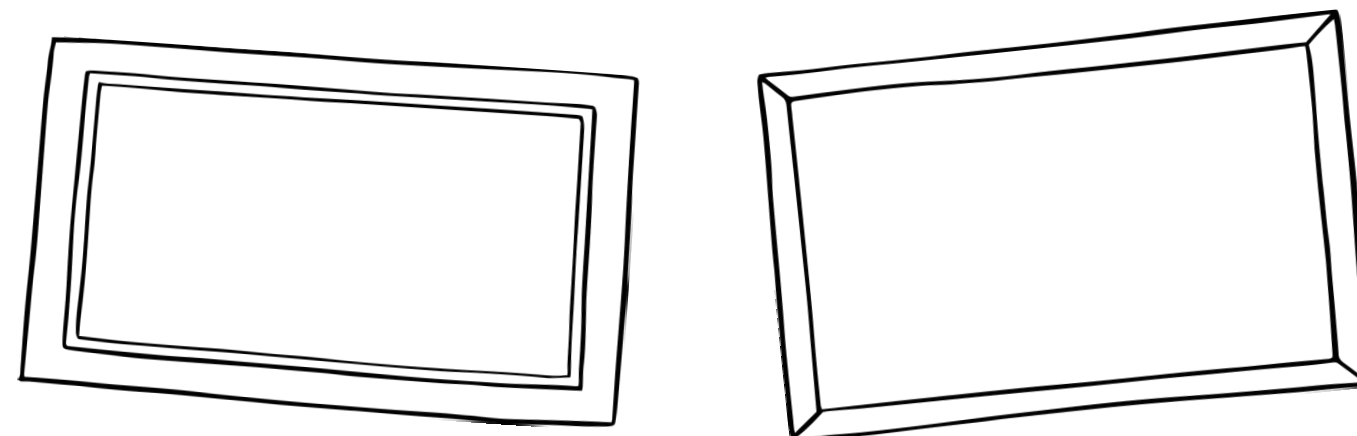

Back to Our Classroom

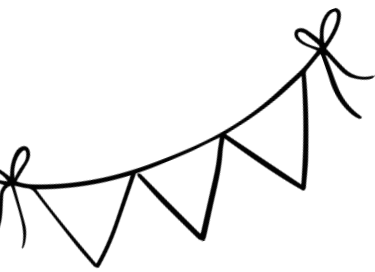

During our time away from school, I have spent lots of time with (if you have extra frames don't forget pets, people you've spoken to on the phone and even people you've often watched on TV)...

Here are some of the new things that I have learnt about these people...

Most of my time has been spent in these places...

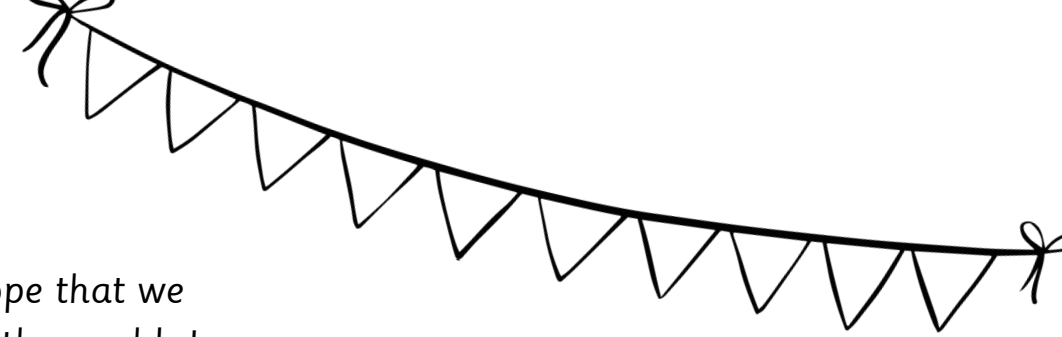

Life Lessons

I have learnt many new things, here are just some of them...

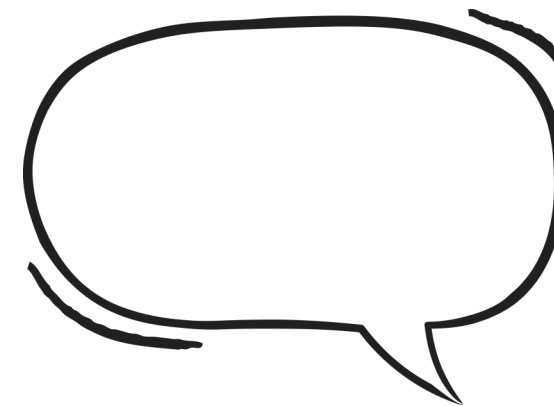

I most enjoyed...

I really missed...

Changes

After this experience, we hope that we might see some changes in the world. I might do some things differently too. Here are some of the ways that it has changed me or the world around me...

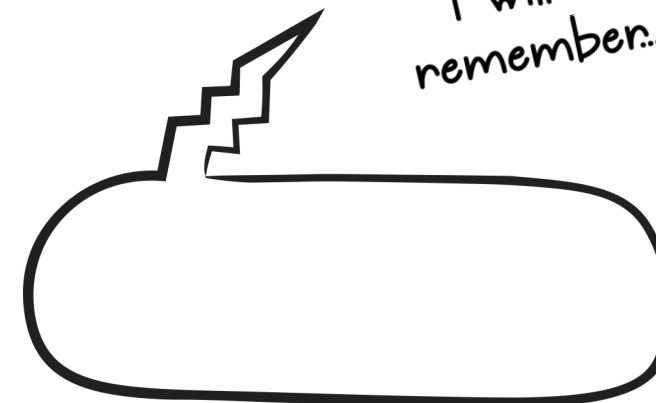

I will notice...

I will value...

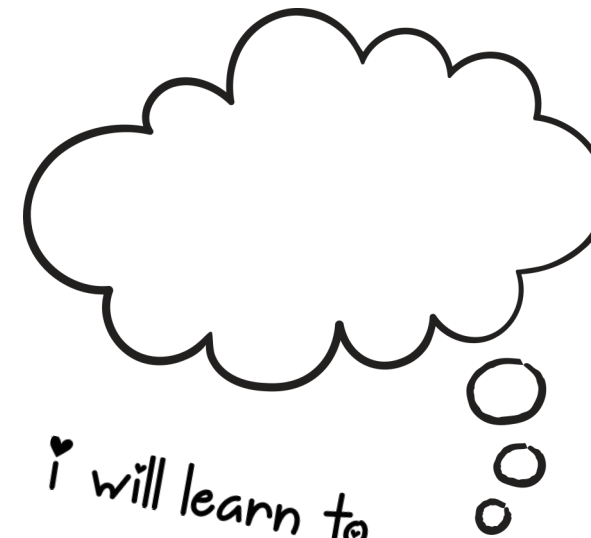

I will be more...

I will remember...

I will be less...

I will appreciate...

I will learn to...

I will look out for...
